Is there a housing shortage on Lidingö?

Yes. According to the municipality itself, there is a housing shortage. Lidingö is growing quickly and demand for more housing is increasing. The municipality **has no target** for how much to build, but according to Region Stockholm, Lidingö must complete construction of **200** homes per year until 2030 in order to manage the housing shortage.

Continued construction and reasonable rental rates are required for everyone to afford a home.

On 13 September, you can take part in deciding which political parties will shape housing policy and make decisions about our homes. Your vote makes a difference.
